CUMULATIVE SUBJECT INDEX

VOLUME 7

ABDOMEN
–abdominal pain in hemochromatosis, 62
ABSCESSES
–use of radioactive silver for the detection of abscesses and tumors, concentration of Ag^{111} in spontaneous and experimentally induced abscesses, 282
ACHLORHYDRIA
–nutritional macrocytic anemia and histomine-fast achlorhydria (11 cases), 168
–significance of achlorhydria for the etiology of iron-deficiency anemia, 266
ACIDOSIS
–alterations in the serum potassium and their relation to certain constituents of the blood in diabetic acidosis, 272
ACIDS
fatty—See Fatty Acids.
ACNE
–intraderm sulfur in treatment of acne vulgaris, 123
–nature of skin lipids in acne, 322
ACOUSTIC NERVE
–disturbances of the nervous stato-acusticus and other cranial nerves following solar irradiation, 280
ACRODERMATITIS ENTEROPATHICA
–acrodermatitis enteropathica; report of two additional cases, 87
ACROKERATOSIS VERRUCIFORMIS
–acrokeratosis verruciformis, 106
ACROPARESTHESIA
–acroparaesthesia, 359
ACTH
–and cortisone in clinical medicine introduction, 325
–cortisone and ACTH in clinical medicine, summary, 341
–cortisone and ACTH in the management of leukemia and lymphoblastoma, 334
–dramatic effect of ACTH (cortrophin in a case of eosinophile infiltration of the lung (Löffler's syndrome); preliminary report, 30
–effect of ACTH and cortisone on connective tissue, 352
–effect of ACTH and cortisone upon an "anaphylactoid reaction," 277
–effect of adrenocorticotropic hormone (ACTH) on beryllium granulomatosis, 354
–effect of cortisone and ACTH in certain endocrine conditions, 348
–effects of cortisone and ACTH in 14 patients with acute rheumatic fever, 351
–effects of cortisone and ACTH on periarteritis nodosa and cranial arteritis, 337
–experiences with cortisone and ACTH in chronic ulcerative colitis, 332
–hematologic changes in a case of rheumatoid arthritis treated with adrenocorticotrope hormone, ACTH, corticotropin, 185
–in atopic dermatitis (infantile eczema) and asthma, 313
–proceedings of the first clinical ACTH conference, 219
–studies on the effect of the administration of pituitary adrenocorticotrophic hormone (ACTH) to a case of Loeffler's syndrome and a case of tropical eosinophilia, 325
–use of cortisone and ACTH in certain diseases, psychiatric aspects, 339
ADAMS-STOKES DISEASE
–Adams-Stokes attacks caused by ventricular fibrilation in a man with otherwise normal heart, 155
ADRENAL GLAND
cortex:
–adrenal cortex and hypertension, 352
ADRENOCORTICOTROPHIC HORMONE
—See ACTH
AEROSOLS
–use of bacitracin, a new antibiotic, in aerosol form, 236
AGING
–cardiovascular problems after age 70, 246
AGRANULOCYTOSIS
–leukocyte counts in prevention of drug agranulocytosis, 43
ALCOHOL
–liver damage produced by feeding alcohol or sugar and its prevention by choline, 263
ALCOHOLISM
–clinical, biological and histological study of steatosis of the liver in alcoholics, 265
–evolution of alcoholic steatosis of the liver controlled by puncture biopsies, 387
–role of carethyl (glycohepatized alcohol) in treatment of chronic alcoholism, 188
–tetraethylthiuramdisulphide in treatment of alcoholics, 71
ALLERGY—*See also Migraine.*
–allergic reactions in parenteral liver therapy and vitamin B_{12}, 405
–effect of tertian fever upon epidermal allergy, 134
–studies in the allergy of infection; responses of the skin to BCG vaccination in various categories of tuberculin sensitivity, 73
–thephorin (phenindamine) in treatment of gastrointestinal allergy, 178
respiratory:

-mold fungi in the etiology of respiratory allergic diseases, use of a concentrated extract in the treatment of mold-sensitive patients, 271
ALOPECIA
-alopecia due to metastases from adenocarcinoma of the breast, report of a case, 122
ALUMINUM-DIHYDROXY-AMINOACETATE
-report on peptic ulcer therapy using a new antacid, 165
ALUMINUM THERAPY
-serum concentrations following five treatment schedules with procaine penicillin in oil with aluminum monostearate, 97
-treatment of gastroduodenal ulcers with aluminum hydroxide gel, 36
AMEBIASIS
-aureomycin in treatment of amebiasis, 150
-current therapy of amebiasis, 149
AMIGEN
-effects of administration of protein hydrolysate (amigen), testosterone and folic acid on nitrogen balance in patients with chronic pulmonary tuberculosis, 152
AMINES
-pressor and depressor effects of certain sympathicomimetic amines, 250
AMYLOIDOSIS
cutaneous:
-amyloidosis cutis nodularis atrophicans diabetica, 286
ANAPHYLAXIS
-effect of ACTH and cortisone upon an "anaphylactoid reaction," 277
ANDROGENS
-in Laennec's cirrhosis, 385
ANEMIA
-blood dyscrasias secondary to gold, with a case of hypoplastic anemia cured by splenectomy, 411
-case of refractory macrocytic anemia responding to intravenous iron therapy, 42
-case of severe anemia treated with methionine, 43
-nutritional macrocytic anemia and histamine-fast achlorhydria (11 cases), 168
-causes of infectious anemia, 266
-cryoglobulinemia, 414
-hemolytic anaemia associated with Hodgkin's disease, 408
-significance of achlorhydria for the etiology of iron-deficiency anemia, 266
aplastic:
-fatal aplastic anemia following tridione administration, 281
pernicious:
-effect of vitamine B_{12} on the urinary phenol fractions in pernicious anemia, 170
-hemotopoietic activity of parenterally administered beef muscle concentrate in cases of pernicious anemia, 171
-hemopoietic response of patients with pernicious anemia to crystalline vitamin B_{12}, 170
-rate of erythrocyte regeneration in pernicious anemia, 42
-remarkable effect of proteolyzed liver extract in Biermer's anemia, 268
-risk of neurological complications in pernicious anemia treated with folic acid, 268
-treatment of pernicious anemia and funicular myelosis, 403
-treatment of pernicious anemia with thymin folic acid, 404
-vitamin B_{12} in pernicious anemia; parenteral administration, 168
sickle cell:
-roentgen findings in sickle-cell anemia, 409
-variable clinical manifestatoins of sickle cell anemia, 41
ANESTHESIA
-potentiating effect of glucose and its metabolic products on barbiturate anesthesia, 191
ANGIOCARDIOGRAPHY
-cyanotic congenital heart disease, 390
-angiocardiography in the diagnosis of cardiovascular syphilis, 428
ANHIDROSIS—*See Sweating.*
ANIMALS
-isolation of salmonella from dogs, cats pigeons, 137
ANNOUNCEMENT
-M. William Amster, M. D. appointed head of the Medical Service Department of Schering Corporation Company, 136
-National Gastroenterological Association 1950 Award Contest, 284
ANOMALIES
-Kartagener's syndrome, 190
ANTIBIOTICS—*See also under names of drugs.*
-antibiotic active against dermatophytes, derived from Bacillus subtilis, 291
-antimicrobial therapy in typhoid, 231, 374
-assessment of streptomycin in medical practice, 9
-comparison of the action of streptomycin, polymyxin B, auromycin and chloromycetin on H. pertussis, H. parapertussis, H. influenzae and five enteric strains of gram-negative bacilli, 8
-comparison of the effect of nine antibiotics on experimental typhoid infections in mice, 372
-late results in infectious endocarditis treated with antibiotics, 12
-use and impact of antibiotic therapy, 224
ANTICOAGULANTS
-a new synthetic 'anticoagulant, the ethyl ester of dioxycoumarinyl acetic acid or Tromexan, 269
-treatment of acute coronary occlusion with anticoagulants, 244
ANTIFUNGAL PREPARATIONS
-experimental assessment of therapeutic

efficiency of antifungal substances, 203
ANTIGENS
–sonic-vibrated leptospirae as antigens in the complement fixation test for the diagnosis of leptospirosis, 4
ANTIHISTAMINES
–antihistamine effects of N,N-dramethyl-N′(3-thenyl)-N′-2-pyridyl-ethylenedramine (Threnfadil) applied topically, 271
–blood levels induced by penicillin-antihistamine preparations, 228
–effect of antihistaminics on arrhythmias following coronary artery ligation, 31
–enteric-coated antihistamines, 270
–modified antihistaminic ointment, 423
–new indications for antihistamine therapy; sunburn and insect bites, 206
–prevention of soporific effects of certain antihistamine drugs, 52
–recent experimental and clinical studies of antihistamine therapy, 52
–some pharmacologic properties common to antihistamine compounds, 51, 177
–treatment of allergic nephritis with synthetic antihistamine, 270
–treatment of radiation sickness with a synthetic antihistamine, 179
–tuberculosis and antihistaminics, 153
toxic effects:
–comparative toxicity and side effects of the antihistaminic drugs, 269
ANTIPERSPIRANTS—*SEE Sweating.*
ANTHRAX
–diagnosis and treatment of cutaneous anthrax, 99
ANURIA
–treatment of acute nephritis with anuria, 35
–case of spontaneous rupture of the aortic valve, 26
–coarctation of the aorta and aortic insufficiency, 155
–syphilitic aortitis with obstruction of multiple aortic ostia, 132
aneurysm
–coronary involvement in dissecting aneurysm of the aorta, 244
–dissecting aneurysm of aorta associated atrioventricular nodal rhythm, 27
ARGYROSIS
–excretion of silver in a patient with argyrosis, ineffectiveness of treatment with BAL, 283
ARRHYTHMIA
–diagnosis and treatment of the cardiac arrhythmias, 30
–effect of antihistaminics on arrhythmias following coronary artery ligation, 31
ARSENIC
excretion:
–effect of 2,3-dimercaptopropanol on the excretion of arsenic in the urine, 290
ARSENICALS
–therapeutic value of sulfonamides, arsenic compounds and anti-malarial drugs in experimental toxoplasmosis, 239
ARSENOBENZOL
excretion:
–histological studies of the action of BAL on the excretion of arsenobenzol, 289
ARTERIES
–effect of antihistaminics on arrhythmias following coronary artery ligation, 31
ARTERIOSCLEROSIS
–arteriosclerosis obliterans as a cause of ulcers of the leg, 88
–lipid disturbance in biliary obstruction and its relationship to the genesis of arteriosclerosis, 249
ARTERITIS
–temporal arteritis, 401
ARTHRITIS
–arthropathic psoriasis, 318
–newer concept of arthritis and treatment of arthritic pain and deformity by sympathetic block at the sphenopalatine (nasal) ganglion and use of iron salt of the adenylic nucleotide; dynamics of muscle tonus. Part IV., 185
–observations in the treatment of polyarthritis with injections of sterines and ascorbic acid, 353
rheumatoid:
–effect of blood transfusion on rheumatoid arthritis, 278
–effect of combined injections of deoxycortone acetate and ascorbic acid on rheumatoid arthritis, 279
–effects of cortisone and ACTH on patients with rheumatoid arthritis, 327
–effects of pregnenolone in rheumatoid arthritis and acute articular rheumatism, 358
–hematologic changes in a case of rheumatoid arthritis treated with adrenocorticotropic hormone, ACTH, corticotropin, 185
ASCARIDIASIS
–treatment of ascaridiasis and the danger of mercurial drugs for this purpose, 24
ASCORBIC ACID
–effect of combined injections of deoxycortone acetate and ascorbic acid on rheumatoid arthritis, 279
–observations in the treatment of polyarthritis with injections of sterines and ascorbic acid, 353
ASPERGILLUS
–further studies on aspergillus infections of the nails, 419
ASTHMA
–ACTH in atopic dermatitis (infantile eczema) and asthma, 313
–effects of cortisone on bronchial asthma and hay fever occurring in subjects sensitive to ragweed pollen, 343
–rare complication of bronchial asthma, subcutaneous emphysema, 239
ATHEROSCLEROSIS
–some interesting observations in the prevention of experimental atherosclerosis and their possible application to man, 400

ATROPHODERMA
-atrophodermia vermiculata, 107
-follicular atrophoderma and pseudopelade associated with chondrodystrophia calcificans congenita, 90
AUREOMYCIN
-dermatitis herpetiformis; report of two cases in children treated with aureomycin, 108
-experimental studies on the action of streptomycin, aureomycin and chloromycetin on brucella, 7
-failure of aureomycin and chloromycetin (chloramphenicol) in dermatitis herpetiformis, 205
-in near fatal atypical pneumonia; case report, 145
-in treatment of amebiasis, 150
-in the treatment of diseases of the skin, 317
-in the treatment of pemphigus, 314
-in treatment of peritonitis, 231
-in treatment of some dermatoses, 202
-recovery from pemphigus treated with aureomycin, 105
-Reiter's disease, a case successfully treated with aureomycin, 426
-topical use in cutaneous pyogenic infections and its sensitizing potentialities, 320
-therapeutic results with aureomycin and chloramphenicol, 146
AUTOAGGLUTININS
-autoagglutinins active at body temperature, 174

BACITRACIN
-levels in the cerebrospinal fluid after parenteral injection, 235
-use of bacitracin, a new antibiotic, in aerosol form, 236
BACTERIA
-bacterial meningitis and other diseases affecting the meninges; a review of 349 cases, 148
-pyocyaneus meningitis; a contribution to the streptomycin treatment of meningitides caused by Gram-negative bacteria, 143
BAL—*See also Bismuth.*
-attempted treatment of pemphigus vulgaris with **BAL**, 300
-effect of 2,3-dimercaptopropanol on the excretion of arsenic in the urine, 290
-excretion of silver in a patient with argyrosis, ineffectiveness of treatment with **BAL**, 283
-histological studies of the action of **BAL** on the excretion of arsenobenzol, 289
-use of **BAL** (British anti-lewisite) in treatment of injurious effects of arsenic, mercury and other metallic poisons, 70
BATHS
-cutaneous absorption of radon from naturally carbonated mineral water and plain water baths, 86
BCG VACCINE
-studies in the allergy of infection; responses of the skin to BCG vaccination in various categories of tuberculin sensitivity, 73
BENADRYL
-control of pruritus with diphenhydramine (benadryl) hydrochloride ointment, 108
BENZODIOXANE
-reactions from the use of benzodioxane (933F) in diagnosis of pheochromocytoma, 277
BERYLLIUM
poisoning:
-effect of adrenocorticotropic hormone (ACTH) on beryllium granulomatosis, 354
BESNIER-BOECK'S DISEASE—*See Boeck's disease.*
BILE DUCTS
obstruction:
-lipid disturbance in biliary obstruction and its relation to the genesis of arteriosclerosis, 249
BISMUTH—*See also Bistrimate.*
-exclusive bismuth treatment in primary and secondary syphilis, 133
-treatment of bismuth stomatitis with **BAL** (British anti-lewsite), 193
-treatment of early syphilis with penicillin and bismuth subsalicylate, 323
-treatment of inflammatory dermatoses with oral bismuth; sodium bismuth triglycollamate, 93
BISTRIMATE
-reactions to sodium bismuth triglycollamate (bistrimate), 102
BLASTOMYCOSIS
-lesions of the central nervous system in Lutz's disease or Barzilian blastomycosis, 2
BLOOD
-autoagglutinins active at body temperature, 174
-diagnostic significance of "burr" red blood cells, 172
-problem of the biologic factor or nonspecific positive serologic test for syphilis; clinical observations and case studies, 135
BLOOD DISEASES
-blood dyscrasias secondary to gold, with a case of hypoplastic anemia cured by splenectomy, 411
-eighteen cases of malignant blood diseases treated with nitrogen mustard, 176
-present methods in the diagnosis of hemolytic disorders, 407
BLOOD PRESSURE—*See also Hypertension.*
-origin and evolution of diagnostic procedures with reference to diseases of the heart and circulation. **III. Measurement of blood pressure**, 154
-pressor and depressor effects on certain sympathicomimetic amines, 250
BLOOD TRANSFUSIONS
-effect of blood transfusion on rheumatoid arthritis, 278

BOECK'S DISEASE
-erythematous type of Besnier-Boeck's disease, 75
BONE MARROW
-therapeutic value of intrasternal transfusion of bone marrow, 267
BONES
-diagnosis and treatment of sporotrichosis of the bones, 1
-significance of congenital syphilitic bone changes and the treatment of congenital syphilis, 127
BORIC ACID
-boric acid as a poison; report of six accidental deaths in infants, 68
BRAIN
circulation:
-effects of dihydroergocornine on the cerebral circulation of patients with essential hypertension, 403
BREAST
-pain in a breast due to neurosyphilis, 136
cancer:
-alopecia due to metastases from adenocarcinoma of the breast, 122
BROMIDES
-bromide intoxication caused by dietetic salt, 258
BRUCELLOSIS
-experimental studies on the action of streptomycin, aureomycin and chloromycetin on brucella, 7
-glandular enlargement in human brucellosis; diagnostic and prognostic value, 138
BURNS
-use of 6% salicylic acid alcohol for furunculosis and burns, 304
BURSITIS
-painful stiff shoulder, 187

C VIRUS—*See Coxsackie Viruses.*
CAFERGONE
-for relief of headache, 280
-treatment of migraine with cafergone, 67
CALCIFEROL
-lupus vulgaris, resistant to calciferol, treated with streptomycin and calciferol, 110
-psoriasis treated with calciferol, 113
-some investigations on the value of calciferol therapy in lupus vulgaris, 200
-treatment of lupus vulgaris with calciferol (vitamin D_2), 111
CALCINOSIS
-calcinosis universalis, 284, 362
CAPILLARIES
-treatment of necrotic capillaritis (gangrene in superficial plaques) with tetraethyl-ammonium and intra-arterial dilvasene, 76
CARBUNCLE
-treatment of carbuncles by the local injection of penicillin, 85
CARDIAC CATHETERIZATION
-in adult congenital heart disease, 399
-in the diagnosis of congenital heart disease, 400
-remarks on the technic and diagnostic application of cardiac catheterization, 158
CARDIOSPASM
-simple explanation for cardiospasm and Hirchsprung's disease, 166
CARDIOVASCULAR SYSTEM
-cardiovascular problem after age 70, 246
-results of electrophoresis in cardiovascular diseases, 31
CAROTID SINUS
-nodal tachycardia following digitalis overdosage, stopped by carotid sinus pressure, 394
CATARACT
-cataract with dermatologic affections; poikilodermia or Rothmund's syndrome and sclerodermia or Werner's syndrome, 84
CENTRAL NERVOUS SYSTEM
-lesions of the central nervous system in Lutz's disease or Barzillian blastomycosis, 2
CEREBROSPINAL FLUID
-bacitracin levels in the cerebrospinal fluid after parenteral injection, 235
CEREBROVASCULAR SYSTEM
-study of factors affecting the prognosis of cerebral vascular accident, 65
CHEMOTHERAPY—*See also Antibiotics.*
-proper use of chemotherapeutic agents, 226
CHILDREN
-dermatitis herpetiformis in an infant, 114
-etiology of erythema nodosum in children, 117
-experimental studies on the etiology of strophulus infantum, 115
-massive familial venereal infection of children after the second world war, 117
-some thoughts on infantile eczema, 118
CHINESE
-Kaposi sarcoma in a Chinese boy (aged 16 years) with localization on the left lower extremity and on the right caruncula lacrimalis, 116
CHLORAMPHENICOL—*See Chloromycetin.*
-effect of chloramphenicol in early syphilis, 323
-herpes zoster, treatment with chloramphenicol, 108
-therapeutic results with aureomycin and chloramphenicol, 146
-therapeutic value of chloramphenicol in a group of dermatoses of established or questionable virus etiology, 425
-treatment of gonorrhea with chloramphenicol, 19
CHLORIDE
-bedside determination of chloride, a method for plasma, urine and other fluids and its application to fluid balance problems, 361
CHLOROMYCETIN
-administration of chloromycetin in typhoid salmonelloses, 372
-complications of treatment of typhoid and paratyphoid fever with chloramphenol (chloromycetin), 233

-experimental studies on the action of streptomycin, aureomycin and chloromycetin on brucella, 7
-failure of aureomycin and chloromycetin in dermatitis herpetiformis, 205
-failure of chloromycetin in the treatment of tuberculosis, 375
-herpes zoster treated with chloromycetin, 427
-in the treatment of encephalitic forms of typhoid fever, 145
-in the treatment of pneumonia in infants and children; a preliminary report on thirty-three cases, 147
-in treatment of typhoid fever, 20
-sudden death in collapse after beginning treatment with chloromycetin, 371
-therapy in Rocky Mountain spotted fever, 235
-treatment of typhoid fever with chloromycetin, 20
-two cases of tularemia treated with chloromycetin, 234
-use of chloromycetin in abdominal typhoid, 233

CHLOROQUINE
-treatment of falciparun malaria with intramuscular chloroquine, 23

CHOLESTEROLS
-diabetes mellitus complicated by hypercholesterolemia, lipemia retinalis and hepatomegaly; a case report, 53

CHOLINE
-liver damage produced by feeding alcohol or sugar and its prevention by choline, 263

CHONDRODYSTROPHIA CALCIFANS
-follicular atrophoderma and pseudopelade associated with chondrodystrophia calcificans congenita, 90

CHOREA
-lithium intoxication producing chorea athetosis with recovery, 192

CHROMATOGRAPHY
-introduction of clinical paper chromatography, 193

CIRCULATION
-effects of a new sympathelytic drug (priscol) on the peripheral circulation in man, 159
pulmonary:
-studies of the pulmonary circulation in man at rest, 389

CLAUDICATION—*See Heart*

CLOSTRIDIUM OEDEMATIS
-benign multirecurrent endotheliolekukocyte meningitis, fatal necrotic hepatitis, due to clostridium oedematis, 363

COAL TARS
-coal tar therapy in dermatologic conditions, 317

COCCIDIOIDOMYCOSIS
-hazard involved in diagnostic procedures, with report of a case, 222

COD LIVER OIL
-fungistatic and fungicidal action of cod liver oil and mixture of the non-saturated fatty acids derived from this oil, 283

COLITIS
ulcerative:
-chronic ulcerative colitis—an allergic disease, 261
-experiences with cortisone and ACTH in chronic ulcerative colitis, 332
-local complications of chronic ulcerative colitis, based on the study of 2,000 cases, 379

COLLAGEN DISEASE
-masked collagen disease, 189

COLON
-diverticula of the colon, a report of 274 cases, 380

CONNECTIVE TISSUE
-effect of ACTH and cortisone on connective tissue, 352

CORONARY ARTERIES
-coronary involvement in dissecting aneurysm of the aorta, 244
insufficiency:
-two-step exercise electrocardiogram, a test for coronary insufficiency, 397
occlusion:
-treatment of acute coronary occlusion with anticoagulants, 244

CORTISONE
-action of cortisone in nephritis with edema, 336
-and ACTH in clinical medicine, introduction, 325
-and ACTH in clinical medicine, summary, 341
-and ACTH in the management of leukemia and lymphoblastoma, 334
-effect of ACTH and cortisone on connective tissue, 352
-effect of ACTH and cortisone upon an "anaphylactoid reaction," 277
-effects of cortisone and ACTH in certain endocrine conditions, 348
-effects of cortisone and ACTH in 14 patients with acute rheumatic fever, 351
-effects of cortisone and ACTH on patients with rheumatoid arthritis, 327
-effects of cortisone and ACTH on periarteritis nodosa and cranial arteritis, 337
-effects of cortisone and certain ophthalmic diseases, 350
-effects of cortisone on acute disseminated lupus erythematosus, 329
-effects of cortisone on bronchial asthma and hay fever occurring in subjects sensitive to ragweed pollen, 343
-experiences with cortisone and ACTH in chronic ulcerative colitis, 332
-in neurologic diseases, 347
-treatment of disseminated lupus erythematosus with cortisone and adrenocorticotropin, 201
-use of cortisone and ACTH in certain diseases, psychiatric aspects, 339

COXSACKIE VIRUSES
-C-virus as the cause of "infantile paralysis" without pareses, 366

-Coxsackie viruses, 368
-human disease associated with Coxsackie viruses, 367
CRANIAL ARTERITIS
-effects of cortisone and ACTH on periarteritis nodasa and cranial arteritis, 337
CRANIAL NERVES
-disturbances of the nervous stato-acusticus and other cranial nerves following solar irradiation, 280
CREATINURIA
-on creatinuria in man, roles of the renal tubule and of muscle mass, 357
CRYOGLOBULINEMIA
-cyroglobulinemia, 414
CURETHYL
-role of curethyl (glycohepatized alcohol) in treatment of chronic alcoholism, 188

DARIER'S DISEASE
-liver function in Darier's disease and pityriasis rubra pilaris, 77
DARVISUL
-use of darvisul in acute poliomyelitis, 22
DERMATITIS
-bilateral spontaneous retinal detachment in two young patients with neurodermatitis disseminata of several years' duration, 212
-contact dermatitis due to phenolphthalein, 102
-death from dermatitis and stomatitis during streptomycin therapy, 206
-vesicular and bullous eruptions, 213
atopic—See Eczema, infantile.
DERMATITIS HERPETIFORMIS
-dermatitis herpetiformis in an infant, 114
-dermatitis herpetiformis; report of two cases in children treated with aureomycin, 108
-failure of aureomycin and chloromycetin (chloramphenicol) in dermatitis herpetiformis, 205
-treatment of dermatitis herpetiformis resistant to usual therapy, 426
DERMATOLOGY—*See also Skin, diseases and specific diseases.*
-psychosomatic factors in dermatology, 124
DERMATOMYOSITIS
-dermatomyositis, 318
DERMATOPHYTOSIS
-antibiotic active against dermatophytes, derived from Baullus subtilis, 291
-clinical observations on the treatment of dermatophytosis with fatty acids, 289
-question of the diagnosis of mucous membrane dermatophytes, 291
DERMATOSES
-acrodermatitis enteropathica; report of two additional cases, 87
-aureomycin in treatment of some dermatoses, 202
-cataract with dermatologic affections; poikilodermia or Rothmund's syndorme and sclerodermia or Werner's syndrome, 84
-etiology and therapy of the so-called varicelliform eruption (Kaposi), 76
-intravenous novocaine in pruritic dermatoses, 419
-observations on some cholinogenic dermatoses, including a case of cholinogenic erythema nodosum, 197
-promin in the treatment of certain dermatoses, 98
-therapeutic value of chloramphenicol in a group of dermatoses of established or questionable virus etiology, 425
-treatment of inflammatory dermatoses with oral bismuth; sodium bismuth triglycollamate, 93
DERMOGRAPHIA
-delayed and persistent dermographia, 321
DESOXYCORTICOSTERONE
-and electric shock, a therapeutic combination in psychic diseases, preliminary report, 354
-effect of combined injections of deoxycortone acetate and ascorbic acid on rheumatoid arthritis, 279
DIABETES MELLITUS
-diabetes mellitus complicated by hypercholesterolemia, lipemia retinalis and hepatomegaly; a case report, 53
-diabetic retinitis in young persons, 181
-evaluation of the use of various insulin preparation in diabetes mellitus, 54
-insurance aspects of insulin resistant diabetes, 55
-supplementary treatment of diabetes mellitus with steroid hormones, 355
DIBUTOLINE SULFATE
-effect of dibutoline sulfate on interdigestive gastric secretion of peptic ulcer patients, 254
DICUMAROL
-major bleeding from a single dose of dicumarol, 413
-use of dicumarol in acute myocardial infarction, 156
DIGITALIS
-nodal tachycardia following digitalis overdosage, stopped by carotid sinus pressure, 394
DIHYDROERGOCORNINE
-effects of dihydroergocornine on the cerebral circulation of patients with essential hypertension, 403
DILVASENE
-treatment of necrotic capillaritis (gangrene in superficial plaques) with tetraethyl-ammonium and intra-arterial dilvasene, 76
DIPHTHERIA
-penicillin in the treatment of diphtheria, 371
DISINFECTANTS
-effect of disinfectants on the Wassermann reaction and floccilation test, 73
DIURETICS
-analysis of 27 reported fatalities im-

mediately following the injection of a mercurial diuretic, 33
DIVERTICULA
colon:
–diverticula of the colon, a report of 274 cases, 380
DRUG ERUPTIONS
–fixed eruption and urethritis due to phenolphthalein, 308
DRUG REACTIONS
–prevention and treatment of severe penicillin and other drug reactions, 227
DUODENAL ULCER—*See Peptic Ulcer.*
DUMPING SYNDROME
–dumping syndrome; what makes it and how to avoid it, 38
DUPUYTREN'S CONTRACTURE
–treatment of Dupuytren's contraction with vitamin E, 279
DYSPEPSIA
–gastric secretion and subsequent dyspepsia, a follow-up study, 162

ECHINOCOCCUS
–echinococcus infection; report of a case in an immigrant in South Carolina, 150
ECZEMA
–causes and treatment of eczema, 315
infantile:
–ACTH in atopic dermatitis (infantile eczema) and asthma, 313
–some thoughts on infantile eczema, 118
EDEMA
–salt and water in the pathogenesis and treatment of the edema of cardiac patients, 32
ELASTOSIS
–fibrous changes in the dermis, with special reference to senile elastosis, 77
ELECTROCARDIOGRAPHY
–electrocardiogram in old age, 398
–production of electrocardiographic abnormalities by suggestion under hypnosis, case report, 242
–Q-T interval in acute rheumatic carditis, 157
–two-step exercise electrocardiogram, a test for coronary insufficiency, 397
–unipolar electrocardiography, including intracardiac leads, in the diagnosis of myocardial disease, 396
ELECTROPHORESIS
–results of electrophoresis in cardiovascular diseases, 31
ELECTROSHOCK
–desoxycorticosterone and electric shock, a therapeutic combination in psychic diseases, preliminary report, 354
EMPHYSEMA
–rare complication of bronchial asthma, subcutaneous emphysema, 239
ENCEPHALITIS
–measles encephalitis, study of fifty cases, 224
–sequelae of mumps-meningoencephalitis, 140
ENCEPHALOMYELITIS
–fatal case of acute encephalomyelitis due to poliomyelitis virus, 5
ENCEPHALOPATHY
–encephalopathy of hyperinsulinism, 180
ENDOCARDITIS
–complete heart block in a case of acute bacterial endocarditis with report of autopsy findings, 242
–late results in infectious endocarditis treated with antibiotics, 12
–streptomycin in the treatment of subacute bacterial endocarditis, 228
–subacute bacterial endocarditis due to salmonella typhimurium, 140
–subacute bacterial endocarditis in pregnancy, 4
–treatment of bacterial endocarditis; review of twelve cases, 11
ENDOCRINES
–clinical tests of endocrine function, 180
–effects of cortisone and ACTH in certain endocrine conditions, 348
ENTEROPTOSIS
–enteroptosis as a cause of neuritis of the nerves of a lumbar and sacral plexuses; characteristic aspects of such neuritic syndromes, 64
EOSINOPHILIA
–studies on the effect of the administration of pituitary adrenocorticotrophic hormone (ACTH) to a case of Loeffler's syndrome and a case of tropical eosinophilia, 325
EPIDERMOPHYTOSIS
–droplet culture method for fungus isolation and a staining method for diagnosis of epidermophytosis, 103
EPIGASTRIUM
–epigastric pain, 387
EPILATION
–manual epilation in treatment of tinea capitis, 81
EPITHELIOMA
–superficial epithelioma of the covered parts of the body, 95
ERGOT DERIVATIVES
–herpes zoster; treatment of pain with dihydroergotamine, 213
ERUPTIONS
–vesicular and bullous eruptions, 213
–vesicular and bullous eruptions in childhood, 422
ERYTHEMA NODOSUM
–case of erythema nodosum following benign abacterial meningitis, 210
–etiology of erythema nodosum in children, 117
–observations on some cholinogenic dermatoses, including a case of cholinogenic erythema nodosum, 197
ERYTHROCYTES
–rate of erythrocyte regeneration of pernicious anemia, 42
ESOPHAGUS
–clinical and roentgenologic aspects of esophageal lesions in scleroderma, 208

EURAX
–treatment of scabies with a new compound, 319
EXOPHTHALMOS
–association of progressive (malignant) exophthalmos and localized myxedema, 85
–studies of the relationship of the thyrotropic, exophthalmic and fat-mobilizing principles of pituitary extract. I. Effect of various dosages on production of exophthalmos and mobilization in intact and thyroidectomized guinea pigs. II. The effect of iodination of pituitary extract upon these three principles, 58–59
–studies of the relationship of the thyrotropic, exophthalmic and fat-mobilizing principles of pituitary extract. III. Effect of adrenocorticotropic hormone (ACTH) and desoxycorticosterone acetate (DOCA) upon exophthalmos and fat mobilization in guinea pigs, 60
EYES
–bilateral spontaneous retinal detachment in two young patients with neurodermatitis disseminata of several years' duration, 212
–diabetic retinitis in young persons, 181
–effects of cortisone and certain ophthalmic diseases, 350
–eye changes in tuberculosis of the skin, 295
–giant calcio-osseous hydrohematonephrosis; angiospastic retinitis or exogenous toxic (sulfonamide) injury of the eyegrounds, 162
–ocular disturbance occurring in miliary tuberculosis and tuberculosis meningitis and their treatment with streptomycin, 17
–retinal arterial occlusion in migraine, 189
–visual disturbances as a result of streptomycin therapy in tuberculous streptingitis, 18
EYELIDS
–lymphosarcoma presenting as oedema of the eyelids, 199

FACE
–diagnosis of some facial skin conditions, 316
FAT MOBILIZATION
–studies of the relationship of the thyrotropic, exophthalmic and fat-mobilizing principles of pituitary extract. III. Effect of adrenocorticotropic hormone (ACTH) and desoxycorticosterone acetate (DOCA) upon exophthalmos and fat mobilization in guinea pigs, 60
FATTY ACIDS—*See also Cod Liver Oil.*
–clinical observations on the treatment of dermatophytosis with fatty acids, 289
–treatment of pulmonary tuberculosis and diseases of the liver with unsaturated fatty acids, 241
FEVER THERAPY — *See also Malaria Therapy.*
–fever therapy of acute anterior poliomyelitis, 5
–study of histamine-induced gastric secretion during artificial fever, 387

FISTULA
–clinical symptomatic esophageo-bronchial fistula in chronic pulmonary tuberculosis, 152
FLUID BALANCE
–bedside determination of chloride, a method for plasma, urine and other fluids and its application to fluid balance problems, 361
FOLIC ACID
–risk of neurological complications in pernicious anemia treated with folic acid, 268
–treatment of pernicious anemia with thymin and folic acid, 404
FOX-FORDYCE DISEASE
–menstrual disturbances in Fox-Fordyce disease, 286
FUNGUS
–droplet culture method for fungus isolation and a staining method for diagnosis of epidermophytosis, 103
–experimental assesment of therapeutic efficiency of antifungal substances, 203
FURUNCULOSIS
–use of 6% salicylic acid alcohol for furunculosis and burns, 304

GANTRISIN
–a new sulfonamide (gantrisin), studies on solubility, absorption and excretion, 237
GAS-POCKETS
–localized walled-off gas pockets due to perforation complicating ulceration and gastric carcinoma, 259
GASTRIC JUICE
–cystologic examination of the gastric juice and mucus, 164
GASTRIC SECRETIONS
–gastric secretion and subsequent dyspepsia, 162
–study of the effect of an anion exchange resin on gastric and duodenal secretions and gastric emptying, 253
–study of histamine-induced gastric secretion during artificial fever, 387
GASTROINTESTINAL HEMORRHAGE
–thrombin in the control of upper gastrointestinal hemorrhage, 254
GIANT GROWTH
–unilateral giant growth, 290
GLANDS
–glandular enlargement in human brucellosis; diagnostic and prognostic value, 138
GLUCOSE
–potentiating effect of glucose and its

metabolic products on barbiturate anesthesia, 191
GOITER—*See Thyroid.*
GOLD THERAPY
–blood dyscrasias secondary to gold, with a case of hypoplastic anemia cured by splenectomy, 411
GONORRHEA
treatment:
oral penicillin in the treatment of gonorrhea (reference), 238
–treatment of gonorrhea with chloramphenicol, 19
–treatment of gonorrhea with dihydrostreptomycin (reference), 238
GRANULOMA
–eosinophilic granuloma of the skin, 94
GRANULOMA GANGRAENESCENS
–new experiences with roentgenotherapy of granuloma gangraenescens, 293
GRANULOMA INGUINALE
–anorectogenital lymphogranuloma venereum and granuloma inguinale treated with aureomycin, 18
–streptomycin therapy of chronic granuloma inguinale, 96
GRIPPE
–use of sulfamethyldiazine intravenously in pulmonary localizations of the recent epidemic of grippe, 20

HAY FEVER
–effects of cortisone on bronchial asthma and hay fever occurring in subjects sensitive to ragweed pollen, 343
HEADACHE
–cafergone for relief of headache, 280
–evaluation of a new agent (methylisooctenylamine) in treatment of vasodilating headaches, 188
–headaches due to isolated cerebroretinal hypertension, 63
HEART
–Adams-Stokes attacks caused by ventricular fibrillation in a man with otherwise normal heart, 155
–cardiac hemoptysis, 156
–case of spontaneous rupture of the aortic valve, 26
–dissecting aneurysm of aorta associated with atrioventricular nodal rhythm, 27
–studies on the aging heart, the pattern of rheumatic heart disease in old age, 392
HEART BLOCK
–complete heart block in a case of acute bacterial endocarditis with report of autopsy findings, 242
HEART DISEASE—*See also Myocardium.*
–diagnosis and treatment of the cardiac arrhythmias, 30
–origin and evolution of diagnostic procedures with reference to diseases of the heart and circulation. III. Measurement of blood pressure, 154
–Q-T interval in acute rheumatic carditis, 157
–remarks on the technic and diagnostic applications of cardiac catherization, 158
–salt and water in the pathogenesis and treatment of the edema of cardiac patients, 32

HEMANGIOMA
–radium in treatment of hemangioma, 283
HEMOCHROMATOSIS
–abdominal pain in hemochromatosis, 62
HEMOPTYSIS
–cardiac hemoptysis, 156
HEMORRHAGE
–hemorrhage acidents due to sodium salicylate; their prevention and curative treatment with vitamin K, 69
–hemorrhagic diseases, 172
–major bleeding from a single dose of dicumarol, 413
–rectal haemorrhage associated with infectious mononucleosis, 141
–study of factors affecting the prognosis of cerebral vascular accident, 65
HEPATITIS
–benign recurrent endothelioleukocyte meningitis, fatal necrotic hepatitis due to clostridium oedematis, 363
–renal studies in acute infectious (epidemic) hepatitis, 3
–diabetes mellitus complicated by hypercholesterolemia, lipemia retinalis and hepatomegaly; a case report, 53
HERPES ZOSTER
–acute herpetic gingivostomatitis in the adult, 207
–aureomycin and chloromycetin in the therapy of herpes zoster (reference), 238
–herpes zoster, a surgical procedure for the treatment of postherpetic neuralgia, 308
–herpes zoster; treatment with chloramphenicol, 108
–herpes zoster after irradiation, 211
–herpes zoster; treatment of pain with dihydroergotamine, 213
–treated with chloromycetin, 427
HEXYLRESORCINOLS
–treatment of taenia saginata with a

hexylresorcinol emulsion administered into the duodenum, 23
HIRSCHSPRUNG'S DISEASE
-simple explanation for cardiospasm and Hirschsprung's disease, 166
HODGKIN'S DISEASE

MENSTRUATION
-menstrual disturbances in Fox-Fordyce disease, 286
MEPACRINE
-mepacrine drug eruption affecting a tooth, 82
MERCURY PREPARATIONS
-analysis of 27 reported fatalities immediately following the injection of a mercurial diuretic, 33
-clinical report on the toxicity of a new mercurial diuretic, (thiomerin) for subcutaneous administration, 34
-treatment of ascardiasis and the danger of mercurial drugs for this purpose, 24
MESENTERY
-mesenteric vascular occlusion, study of 99 cases of occlusion of veins, 245
METHIONINE
-case of severe anemia treated with methionine, 43
-methionine test; a new test of liver function, 38
METHYLCELLULOSE
-method of improving function of the bowel: use of methylcellulose, 35
METHYLISO-OCTENYLAMINE
-evaluation of a new agent (methylisooctenylamine) in treatment of vasodilating headaches, 188
METHYLTHIOURACIL
-methylthiouracil, an antithyroid agent, 183
MIGRAINE
-retinal arterial occlusion in migraine, 189
-treatment of migraine with cafergone, 67
MILIARIA
-experimental miliaria in a man. II. Production of sweat retention anidrosis and miliaria crystallina by various kinds of injury, 215
MILK
-breast milk for protein therapy and a possible substitute for plasma, 72
MINERAL OIL
-effects of mineral oil on food utilization (reference), 265
MITSUDA TEST
-use of sulfonamides in Mitsuda-negative patients; immunobiologic interpretation of the resultant positivization of the reaction, 96
MOLDS
-mold fungi in the etiology of respiratory allergic diseases, use of a concentrated extract in the treatment of mold-sensitive patients, 271

MOLLUSCUM CONTAGIOSUM
-inflammatory reactions to molluscum contagiosum, possibly of immunologic nature, 92
MONGOLIAN SPOTS

-unusual malignant tumors of the skin, 285
SKIN TESTS
-dry patch tests for streptomycin sensitivity, 272
SODIUM SALICYLATE
-hemorrhage accidents due to sodium salicylate; their prevention and curative treatment with vitamin K, 69
-treatment of lupus erythematodes with sodium salicylate according to Tommasi, 298
SOLANIN
-clinical study of solanin poisoning; case report, 69
SPECTROMETER
-lung ventilation patterns determined by analysis of nitrogen elimination rates, use of the mass spectrometer as a continuous gas analyzer, 376
SPLEEN
-myeloid leukemias and pseudo-leukemias; osteosclerosis and myelofibrosis; differential diagnosis by puncture of the spleen, 45
-studies on thrombocytopen. I. A reliable test for this principle in organic homogenates and in urine, 48
SPLENECTOMY
-medical aspects of splenectomy, 412
SPOROTRICHOSIS
-diagnosis and treatment of sporotrichosis of the bones, 1
-sporotrichosis; a report of two cases in unusual locations, 120
SPRUE
-symptomatic sprue, a study of six verified cases, 381
STERINES
-observations in the treatment of polyarthritis with injections of sterines and ascorbic acid, 353
STEROIDS

TACHYCARDIA
-nodal tachycardia following digitalis overdosage, stopped by carotid sinus pressure, 394
TAENIA SAGINATA
-treatment of taenia saginata with a hexylresorcinol emulsion administered into the duodenum, 23
TAR—*See Coal Tars.*
TEETH
-mepacrine drug eruption affecting a tooth, 82
TERRAMYCIN
-clinical observations on the use of terramycin hydrochloride, 142
-terramycin in treatment of venereal disease; a preliminary report, 218
TETRAETHYLTHIURAMDISULFIDE
-tetraethylthiuramdisulphide in treatment of alcoholics, 71
THEOPHORIN
-theophorin ointment in pruritic dermatoses, 110
THEPHORIN—*see also Phenindamine.*
-disseminated and circumcribed neurodermatitis treated with phenindamine (thephorin), 90
-thephorin (phenindamine) in treatment of gastrointestinal allergy, 178
THIOARSENITES
-current therapy of amebiasis, 149
THIOMERIN
-clinical report on the toxicity of a new mercurial diuretic, (thiomerin) for cutaneous administration, 34
THIOURACIL
-liver damage in thyrotoxicosis with special reference to the results of liver function tests in patients treated with thiouracil, 273
THOROTRAST
-bilateral alveolar lung carcinoma, associated with the injection of thorotrast, 378
THROMBIN
-in the control of upper gastrointestinal hemorrhage, 254
THROMBOANGIITIS OBLITERANS
-treated by hypoglycaemia, 247
THROMBOCYTOPEN
-studies on thrombocytopen. I. A reliable test for this principle in organic homogenates and in urine, 48
THROMBOPHLEBITIS
-treatment of acute nonsuppurative thrombophlebitis, 34
THYMIN
-treatment of pernicious anemia with thymin and folic acid, 404
THYROID
